

SteelTailor™ CNC Cutting Family

----- Portable CNC Cutting Machines

SteelTailor™ Power

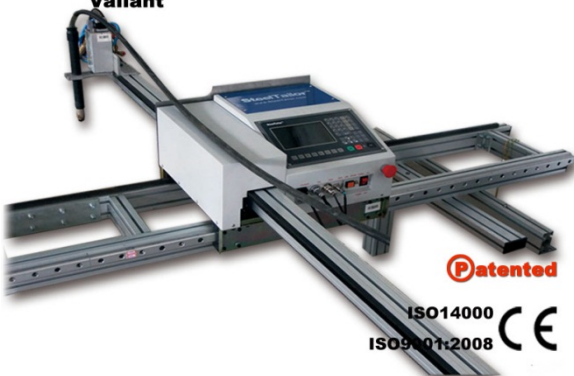

SteelTailor™ Power Series

Most classic portable CNC cutting machine
Standard effective cutting area: **1200mm x 2000mm**
Can be extended to Maximum: **1800mm x 15000mm**
Plasma and oxy-fuel, compatible
Automatic torch height control in option

Want to be wider?

SteelTailor™ Valiant

SteelTailor™ Valiant Series---Newly Patented

Optimized structure
Wider rail frame, rack and pinion precision
More rigid and stable
Standard effective cutting area: **1800mm x 3000mm**
Can be extended to Maximum: **2000mm x 15000mm**
Plasma and oxy-fuel, compatible
Automatic torch height control

Still not wide enough?

SteelTailor™ Dragon I

SteelTailor™ Dragon I series---Newly Patented

Portable gantry machine with two rails and dual drivers
Same performance with big gantry machine but much lower cost
Standard effective cutting area: **2500mm x 3000mm**
Can be extended to Maximum: **3500mm x 15000mm**
Plasma and oxy-fuel, compatible
Automatic torch height control

Could a Bench Cutting Machine be Portable? YES!

SteelTailor™
Smart I

ISO14000
ISO9001:2008 CE

SteelTailor™ Smart I series

Simple and Beautiful!
Easy Assembly and Disassembly
Standard effective cutting area: **1300mm x 2500mm**
For plasma cutting
Automatic torch height control#

Portable Bench for Industry

SteelTailor™
Smart II

ISO14000
ISO9001:2008 CE

SteelTailor™ Smart II series---Newly Patented

Everything of a Bench CNC and More!
Easy assembly, easy operation, easy maintenance
Standard effective cutting area: **1300mm x 2500mm**
For plasma cutting
Automatic torch height control

Expert In Sheet Metal Cutting

SteelTailor™
Legend II

ISO14000
ISO9001:2008 CE

SteelTailor™ Legend II series

The most economical CNC Cutter for metal as thin as 0.3mm till 5 mm
Platen solution, avoids rust of the metal sheet and the cutting table;
Small kerf, precise cutting, no cutting residue, no need of complementary reworking;
Standard effective cutting area: **1300mm x 2500mm**
Can be extended to Maximum: **1500mm x 3000mm**
For plasma cutting

Choose the perfect type according to your exact needs! We keep on innovating new machines to better satisfy your needs!
